

## Happy Valley

### The Parc Mwd Adventure Play Scheme

It has been a year since the official opening in Valley of the adventure playground at Parc Mwd.

On that Saturday in early October over 200 adults brought along 150 children to try out the carefully planned and organised play area; it was truly a fun day for all and a huge success for the tireless work of the Valley Community Group to establish the facility.

Excitement had been building locally with local primary school children being responsible for the mosaics that were and are still a feature of the entrance sculptures at Parc Mwd adventure playground.

Menter Môn was able to provide a grant through the Adfywio Pentrefol project with funds from the Rural Development Plan; to help community groups to add value to their communities.
