

## Saving the only shop in the village

Llanarmon-yn-Iâl Community Shop is a new Industrial and Provident Society that was established to prevent the only village shop from closing in Llanarmon-yn-Iâl in Denbighshire.

Cyfenter funding was secured to revitalise the shop and reverse the decline in its fortunes that has occurred in recent years, developing the business into a vibrant and sustainable village shop. The shop started trading in January 2014 and serves the three villages of Llanarmon-yn-Iâl, Eryrys and Graianrhyd as well as all the isolated farms inbetween. A delivery service is planned within a five-mile radius, targeted at members of the community who find travel difficult. Provisions may be ordered by phone, on-line or in person. The upstairs of the building will be developed to generate additional income through either office space or accommodation. The enterprise also intends to develop its own range of 'food to go' in the kitchen at the back of the property.
