LEADER: Project Overview

Arloesi Mon (AM) and Arloesi Gwynedd Wledig (AGW) is managed by Menter Mon, appointed by Welsh Government as the administrative body for the EU LEADER programme in Ynys Môn and Gwynedd. The teams are located in Llangefni and Porthmadog, and works with various communities of interest, to develop and administer innovative projects and pilot activities in response to the challenges facing the rural economy.

AM and AGW were established in 2015 to brand the activities of the Local Action Groups for LEADER in both counties. The Local Action Groups have been established to monitor and manage the programmes locally. There are 20 members representing different interests and sectors in each County, with a responsibility for providing strategic direction and experienced input to projects.

The programmes are funded through the Welsh Government's Rural Communities program - Wales Rural Development Program 2014-2020, funded by the Welsh Government and the European Agricultural Fund for Rural Development (EAFRD). It is also part funded by the Nuclear Decommissioning Authority (NDA) and Gwynedd Council, and the Isle of Anglesey Charitable Trust.

Menter Mon aims to be at the forefront in identifying, deploying and supporting individuals, businesses and communities to adopt new digital technologies for the benefit of the rural economy. The company continues to explore digital opportunities across the region, in partnership with various organisations such as Microsoft, Local Authorities, M-SParc, Welsh Government, Grwp Llandrillo Menai and the North Wales Economic Ambition Board.
